

PBA Member Benefits for Your Business Needs

By Jessica Galardini, JRG Advisors

Health insurance and other employee benefits are expensive. And, balancing the needs of your employees with your company's capabilities and bottom line has its challenges. The team at the Pennsylvania Builders Insurance Program (PBIP) understands and is here to help PBA members meet these divergent needs.

With two offices in Pennsylvania and partnerships with locally-based agent partners, the PBIP team helps PBA members to identify, implement, and sustain "best in class" insurance packages and pricing. And, we help you to provide your employees with the insurance plans that match network, coverage, and cost goals. Another bonus is the integrated high-touch customer service and administration — a real time-saver for you.

JRG Advisors, the managing company and insurance brokerage firm for the PBIP, also maintains special partnerships with multiple companies that provide discounted payroll and spending account administration for the businesses; and a variety of products like prescription discount cards, pet insurance, and financial protection including disability and life insurance.

JRG and PBIP strive to be your strategic business partner by listening to your health insurance and benefits challenges and by offering solutions. Our team of insurance professionals will develop benefits programs that make sense for your company and your employees. We have specialists in all lines of employee benefits with the experience, know-how, and commitment to keep your programs running smoothly.

Members have full access to all insurance plans and related services companies with PBIP. Our portfolio includes health insurance, dental, vision, life, disability, and voluntary coverages. PBIP clients have the advantage of HR resources, ERISA/ACA compliance services, and platforms that support online enrollment and plan administration — a faster and simpler way to support multiple worksites and the non-traditional worker.
